MySQL / MariaDB Command Line

Verbindung zum Server aufbauen

```
# mysql -u [USER] -p
```

User verwalten / Berechtigungen vergeben

Alle Benutzer anzeigen

```
mysql> SELECT User,Host FROM mysql.user;
+------------------+-----------+
| User             | Host      |
+------------------+-----------+
| root             | 127.0.0.1 |
| root             | ::1       |
| debian-sys-maint | localhost |
| mysql.session    | localhost |
| mysql.sys        | localhost |
| root             | localhost |
+------------------+-----------+
12 rows in set (0.00 sec)
```

Benutzer löschen

```
mysql> DROP USER 'USER'@'localhost';
Query OK, 0 rows affected (0.00 sec)
```

Datenbanken verwalten

Datenbanken ansehen

```
mysql> show databases;
+--------------------+
| Database           |
+--------------------+
| information_schema |
| mysql              |
| performance_schema |
| sys                |
+--------------------+
```

```
4 rows in set (0.00 sec)
```

Datenbank anlegen

```
mysql> CREATE DATABASE IF NOT EXISTS testdb;
```

Datenbank löschen

```
mysql> DROP DATABASE testdb;
```
