Exchange 2013: POP3

Event 1011: status has changed to false

Bitte prüfen, ob der POP-Proxy des Exchange läuft (Exchange Management Shell):

```
Get-ServerComponentstate -Identity Exchange-Server

Server                                  Component
State
------                                  ---------
-----
Exchange-Server.mydomain.local                  ServerWideOffline
Active
Exchange-Server.mydomain.local                  HubTransport

Inactive
Exchange-Server.mydomain.local                  ProvisioningRps
Inactive
Exchange-Server.mydomain.local                  MapiProxy
Active
Exchange-Server.mydomain.local                  EdgeTransport
Active
Exchange-Server.mydomain.local                  HighAvailability
Active
Exchange-Server.mydomain.local                  SharedCache
Active
```

Läuft der Proxy nicht, kann er mit Hilfe dieses Befehls wieder aktiviert werden:

```
Set-ServerComponentState -Identity Exchange-Server -Component PopProxy -
Requester HealthAPI -State Active
```
