Ubuntu 18.04: MySQL-Server

Paketinstallation

```
# apt-get update
# aptitude install mysql-server
```

Absicherung

```
# mysql_secure_installation
```

```
Securing the MySQL server deployment.

Connecting to MySQL using a blank password.

VALIDATE PASSWORD PLUGIN can be used to test passwords
and improve security. It checks the strength of password
and allows the users to set only those passwords which are
secure enough. Would you like to setup VALIDATE PASSWORD plugin?

Press y|Y for Yes, any other key for No:
[...]
```
